Presentation by Jake Gates and Jed Wood regarding the skate park proposal, it now appears that the preferred proposal now is pump track. The presentation was well received and the Council through the Chair and others thanked the young persons for their professionalism. A question and answer session took place. All agreed in principal to the project but the site at Murton Green was not an option, the preferred site should be at the area at the school alongside Providence Lane.

Presentation by Jules Wagstaff and Bob Smith regarding the tree planting at Copley Woods. An update of the project was given and all agreed that the project was a success so far. They explained the need for volunteers even if they could only spend half an hour at the site. The Council agreed that an item in the newsletter would be of benefit to encourage volunteering. Also the Council could finance a leaflet or flyer to advertise the project.

A Question and Answer session took place, and some misunderstandings arose, in future all issues or concerns should be directed to the Clerk so that all interested parties are in the loop. The Chair thanked them both for their presentation and assured that the project has the full support of the Council.
